

Comfortable

Re-Usable

Affordable

Virtually Invisible

Clear Sounding

Replaces Custom Earplugs

Musicians, Concert Attendees
and Music Lovers...

Earasers filter loud noise
so you can enjoy sound at
a safe, comfortable level.

Earasers don't plug up your
ears and muffle sound like
conventional earplugs.

impressed me was the clarity of sound as

*well as voices. Comfort is also key when
listening to Drum Corps drum lines for
hours on end. Finally an earplug where
music sounds real and cymbals sound
difference they make. Love them."*

— Al Murray - Drum Corps Legend,

*"As a member of the Boston Symphony Orchestra, clarity of
sound is an essential part of my job. Finally with Earasers,
I'm able to comfortably protect my hearing while being able
aside many types of earplugs because I couldn't trust the
output of my instrument based on what I was hearing in my
exactly what is coming out of the horn."*

— Mike Roylance - Principal Tuba Boston Symphony Orchestra

Attenuation (Sound Reduction) Comparison
